

# SWISS BANKING ADVISORY

# Educational conferences

The aim is to invite out-of-the box thinkers and innovators as speakers or guests. Speakers as well as the audience which attended the conferences for one year are the closest VIPs and potentially strategically-chosen partners in the future. Swiss Banking Advisory supports innovations, ranging from promotions of out-of-the-box thinking or innovative solutions in sales and distribution. Innovative solutions can fall into different categories, like FinTech, Crypto Currencies, Crowd Funding or other areas. All kinds of developments that support financial institutions in adapting to the changing landscape in Finance are looked at by Swiss Banking Advisory. We collaborate with a number of women networks like Advance Women, Business and Professional Women, Swiss Ladies Drive and 100 women in Finance.

## NEXT CONFERENCES

29. JUNE London  
27. September Zurich

«FinTech Innovation Conference»

The FinTech Innovation Conference focusses on new technologies, innovations as well as deployment and execution. We convey an outlook on current trends and what they will mean to the industry.

Dedicate a few hours of your valuable time to meet very interesting people in your industry and to keep up-to-date with some of the fast moving developments in the finance space.

# «Fintech innovation conference London »

The FinTech Innovation Conference focuses on new technologies, innovations and investments in promising start-ups. We convey an outlook on current trends and what they will mean to the industry.

Dedicate a few hours of your valuable time to meet very interesting people in your industry in London/Zurich and to keep up-to-date with some of the fast-moving developments in the finance space.

The topic of this conference will be “Investment”. As usual, we will also feature a speaker who is not related to the finance world.
